KING Cable Entry Cover

Coax Cable Entry Cover for RV or Travel Trailer Roof

The KING Coax Cable Entry Cover provides a weatherproof, watertight seal where your TV antenna coax penetrates the roof of your RV or travel trailer. Made of a durable all-weather automotive grade ASA plastic, the cover provides five lock down points and when installed per our instructions and with quality roof-compatible sealant, it provides years of trouble-free and leak-free performance*.

- Securely protects the entry point of coax from your antenna to the interior of your RV
- Five mounting points hold the cover securely in place
- Made of automotive grade, weather-resistant, UV stable ASA plastic
- Provides years of leak-free performance*
